Will,

Your assessment is correct. I expect FAA acceptance on the latest changes to the EC135 bearpaws sometime this week. In the meantime, I have sent the original data back to Hawkesbury by Fedex for release on an ECN. Michael Lee should receive this on Monday, July 25th. FAA acceptance should be a formality at this point ... I am OK with releasing the drawings and manufacturing parts. Perhaps we could invoke Positive Recall on the Work Orders so that we don't release parts until we get FAA acceptance.

Regards,
David

Marc,

David is following up with the FAA to review and approve this change... we have an ECD of July 29 (next Friday).
